

H. C. A. STEWART
SUCCEEDS TO AT-
TACK OF PNEUMONIA

Henry Charles Alexander Stewart, of Macleod, died at his home here on Wednesday evening, October 27th following an eight days illness with pneumonia. The deceased went shooting on Thanksgiving Day and the disease from which he died was contracted from exposure on the trip.

Mr. Stewart was fifty-two years of age. He came to Macleod from Peterhead, Scotland in 1903 and had been employed with the C. P. Railway in different capacities practically ever since landing in Macleod, for the last few years acting as checker in the freight department here. Mr. Stewart was a universally respected member of the community, was active in local I.O.O.F. Lodge circles, and was a member of the organization of Orangemen, and had a wide circle of warm friends and acquaintances in Macleod and the district, who deplore his untimely demise. The deceased is mourned by his wife and his brother, S. G. Stewart, the latter of Granum, Alta., and by many intimate friends hereabouts.

The funeral will take place on Friday, October 29th, service for the departed dead at the Presbyterian Church, Macleod at 3 p.m. and thence to the Union Cemetery for interment.

BOARD OF COMMERCE
IS NO MORE

OTAWA, Oct. 23.—The Board of Commerce is no more. Announcement was made from the prime minister's office last night that the members of the board had tendered their resignations to the government, and that no appointments to the vacant positions would now be made.

The announcement from the prime minister's office followed a series of meetings of the cabinet council, the last of them convening at 5.30 o'clock and lasting for a couple of hours.

The statement issued says that when a decision is given by the judicial committee of the privy council as to the extent of the federal authority in relation to the Board of Commerce Act. "It will be for the government to consider what should be done."

Is Not A Surprise
Premier Meighen's statement does not occasion much surprise in the district, as it was felt here that the resignations of the members of the board were certain to be handed in following the cabinet's reversal of the board's order with regard to the maximum price of 21 cents per pound for sugar.

The three commissioners who have now resigned are Capt. William White, who was formerly secretary of the board, and who was appointed a commissioner on the resignations of the original commissioners; F. A. Adams, deputy minister of labor; and Major C. A. Dillon, purchasing agent for the department of justice. The formal announcement of Capt. White's appointment as chief commissioner of the Board of Commerce, is gazetted in this week's Canada Gazette, published tomorrow.

The appointment of the three gentlemen who have now tendered their resignations was stated to be a temporary measure, following the resignations of Judge H. A. Robson, of Winnipeg, the first chairman; W. F. O'Connor, K. C., and James Murdoch, labor representative on the board. Mr. Murdoch's letter of resignation, written to ex-Premier Borden, was the subject of much discussion just prior to the ending of the last session of parliament.

Board's Right Challenged
The right of the board to issue orders placing certain restraints on the export of Canadian products, was challenged in connection with the export of pulp and paper. In regard

COLONY OF TRUMPET
SWANS FOUND IN
BRITISH COLUMBIA

OTTAWA, Oct. 15.—A colony of between 50 and 100 trumpet swans have been located in Canada but the federal department of the interior is keeping their whereabouts a secret, as soon as the birds were discovered a guardian was appointed to protect them. The trumpet swan, one of the most beautiful and stately birds, was hitherto believed to have become extinct. It is understood the colony is located somewhere in British Columbia.—Calgary Herald.

CRACKS JOKE, AND GOES
OVER NIAGARA FALLS

NIAGARA FALLS, N. Y., Oct. 23.—Before the eyes of a score of sightseers, at Prospect Point, late yesterday afternoon, a man climbed over the railing, waded out into the river and was carried over the American falls.

Too astounded to act, the spectators stood by while the man drifted to the brink waving his hands and shouting: "Here's where I leave you; good-bye."

In a black derby hat found near the place where the man climbed the railing, was found a piece of paper, on which was written:

"This hat belongs to Carl Ellis of Hamburg, N.Y."

The description of the suicide corresponds to that of Ellis who could not be located in Hamburg last night.

The owner of a souvenir stand near the falls told the police that the man approached him and laughingly said: "Well, I cannot vote for Harding, so I may as well go over the falls." The souvenir seller thought the man was joking and paid no more attention to the incident until a short time later when he saw the fatal leap.—Lethbridge Herald.

CHILDREN'S HOME
TAKEN OVER
BY RED CROSS

The Children's Home established in Edmonton by the Next-of-Kin Association of that city, and admirably conducted by the Association for a lengthy period, has been taken over by the Alberta Division of the Canadian Red Cross Society. About forty children are now in residence at the home. Mrs. Evans, chairman of the management committee, will continue in that office, and the members of the Next-of-Kin Association will co-operate with the Red Cross in the management of the home.

The function of the Association is now gradually drawing to a close, and in view of the fact that the Red Cross Society has been organized for permanent peace-time work in the province, and has already undertaken the establishment of hospitals, Children's Homes, and similar institutions in Alberta, members of the Next-of-Kin Association decided upon the course which has now been taken. The home is similar to the Children's Home at Brinkman, near Calgary, which was taken over from the Great War Veterans' Association by the Red Cross some time ago.

to this, the prime minister's statement tonight says:

"The jurisdiction of the board will shortly come before the judicial committee of the privy council for final determination. The Dominion government has been pressing to have this case heard with the least possible delay, but as the provinces have a right to be heard, it has not yet been possible to have the exact date of the hearing decided upon. When a decision is given as to the extent of the federal authority in relation to the Board of Commerce Act, it will be for the government to consider what should then be done."—Calgary Herald.

LONG ARM OF LAW
REACHES OUT FOR
ESKIMO MURDERER

OTTAWA, Oct. 25.—(Canadian Press).—Once more the long arm of the Royal Canadian Mounted Police has reached into the northern wilds in the interest of justice. This time the scene of action was Belcher Island, on the east coast of Hudson Bay, and the principle in the case was an Eskimo who killed another member of his tribe. Inspector J. W. Phillips and Sgt. A. H. Joy, who left Haileybury Island to inquire into the reported murder. While their quest proved successful in locating the man wanted he will not be brought from the north for trial because it was established at an inquest that Taknautuk, the Eskimo who did the killing, acted in self-defense. The jury, which was made up of men who accompanied Inspector Phillips on his trip, recommended that no further proceedings be taken against the accused, the fault for the row being laid at the door of Ketnashuk, the dead Eskimo.

Inspector Phillips and his party went north by way of Moose Factory. From there they proceeded by a Hudson Bay Company boat to Charlton Island. At this point they fell in with a couple of men who were prospecting and who accompanied the little force to Belcher Island.—Calgary Herald.

ALBERTA VOTES
DRY BY OVER
10,000 MAJORITY

Alberta remains in the dry column as a result of the verdict at the polls on Monday when the people were asked their opinion on the importation of liquor.

The result of the vote, so far as is available, shows the drys leading in the province with a majority of some 10,000 out of about 60,000 votes cast. This is against a dry majority of 19,266 reported the day after the prohibition vote on July 21, 1915.

"Dry" headquarters at Edmonton are not claiming more than a total possible majority of 15,000 in favor as against 20,000 dry majority in 1915. Their slogan in this election was 50,000 dry majority, which they expected to reach as a result of the fact that all women were eligible to vote on this election for the first time.

Lethbridge city went wet by 216. Calgary dry by 1,209, Edmonton dry by 1,309, and Medicine Hat dry by 100. The mining centres and the French settlements in the north returned the principle wet majorities.

EDMONTON, Oct. 26.—Out of more than 65,000 persons who voted Monday on the liquor referendum, 37,009 voted yes and 28,336, no, a dry majority in Alberta of 8,763, according to figures compiled by the Edmonton Journal at 10 o'clock this morning.

Contrary to general expectations the total vote polled yesterday is not going to be nearly as large as that recorded in 1915 when Alberta first adopted prohibition. The dry majority on the referendum will be only half as large as five years ago. The vote in 1915 was: Dry 50,110; wet 29,543; dry majority of 20,567.

It is probable that when the final and official count is made on Monday's polling the drys will have a majority of about 10,000.

Macleod Constituency Dry
Macleod constituency will probably be found, when the total returns are in, to have produced the smallest dry majority in the province. In some 66 polls heard from, including all the Pass polls, there is a dry majority of 415, which will probably be increased to 600 or 700 when all the returns are in.

The Pass towns all voted wet but Coleman which was slightly dry.

The town of Macleod, though wets had no organization, returned a wet verdict of 106 majority as against a dry majority of 8 in the last election. Claresholm ran up a dry vote of over 2 to 1.

Following are the figures of the constituency:

	Yes	No
Pincher Station	38	32
Burns	4	15
Frank	20	50
Summervue	21	8
Strathglen's Ho	31	5

SIR C. SIFTON TO
SPREAD WINGS IN
NEWSPAPERDOM

REGINA, Sask.—W. F. Herman has secured an option, it is said, on the Toronto World and Hamilton Herald. He has sold his Saskatchewan Star and Morning Phoenix to Sir Clifford Sifton, and they will become part of the Free Press organization in the West.

Mr. Herman was paid a quarter of a million dollars for his papers. Sir Clifford is said to also have an option on the Calgary Morning Albertan. In view of recent articles in the Free Press there is an impression that the Sifton papers will back the Grain-Growers-Liberal combination to win A. B. Hudson, solicitor for the Free Press; E. H. Macklin, general manager; J. W. Dufoe, editor, and the Free Press auditor were in Saskatoon on Friday completing details of the transfer.

Mr. Herman is also said to be after a London paper, with a view of joining up a string to operate in connection with the Windsor dailies. He will devote his whole time to Ontario publications.—Lethbridge Herald.

FARMERS GO 15 TO 1
FOR IRRIGATION

Lethbridge Northern farmers yesterday left no doubt as to where they stood on the question of bonding their land to pay for irrigation, for by a vote of better than 15 to 1 they voted in favor of the \$5,400,000 bond issue for the construction of the project.

The vote polled was 259 for and 16 against, a total of 275, a very representative vote. It was a straight majority of 243 for the project, or 76 more than the two-thirds majority required under the Irrigation Act.

Macleod poll, where there has been some hesitation about entering the district, was the only poll to show any appreciable number of votes against, the result being 14 for and 11 against. In the original Lethbridge Northern district the vote therefore was 245 for and only 6 against.

Chairman Crofts and officials of the district are highly pleased with the result of the vote, and as soon as the bonds are prepared an effort will be made to sell them under the two year guarantee of the provincial government. Hon. C. R. Mitchell, provincial treasurer, will aid in this effort.

This is the first time in Canada's history that farmers have bonded their land to construct an irrigation project.—Lethbridge Herald.

Livingstone	5	12
Gillingham	15	8

Vote at Coleman

COLEMAN, Oct. 26.—The following is the referendum results here:

	Yes	No
Centre Coleman	66	50
East Coleman	32	44
West Coleman	26	22
Total	134	116
Majority for affirmative	18	
The polling was very slow and only 250 voted.		

The "wets" took so little interest that they had no scrutineers at any of the polling booths. Coleman is the only town in the Pass to have a dry majority.

The Pass Vote
BLAIRMORE, Oct. 26.—The vote in the Pass was as was expected. The general feeling is that the full strength of the "drys" voted. The "wets" did absolutely no campaigning, which accounts for the small majority.

Then the light registration is responsible for the light vote cast. The whole Pass country has manifested an indifferent attitude. The foreign element, it is said, had but a hazy understanding of the issue and showed little interest in the election. Ten per cent of the total vote it is estimated represented the foreign element.

(Continued on Page Five)

WILL ASK CONGRESS
FOR "STIFF DUTY"
ON CANADA'S WHEAT

WALLA WALLA, Wash. Oct. 22.—Congressman John W. Summers announced that he is framing a bill for a tariff on imported wheat, with particular reference to Canada, which he expects to introduce in congress at the opening day of next session in December. He did not specify the tariff decided upon but said it would be a "good stiff duty."—Lethbridge Herald.

G. W. V. A. GREAT
HALLOWEEN MAS-
QUERADE BALL

No pains are being spared by the Macleod Great War Veterans in making preparation for the big Halloween Masquerade Ball, to be given on the evening of Monday, Nov. 1st. This function is in the nature of a grand opening event for the winter season's social activities of the association in Macleod. The committee are making elaborate arrangements regarding floor management, music and luncheon that will make this the premier affair of the season. Costumes may be obtained from W. Whitworth. The array of prizes may be seen in R. T. Barker's window. Admission: gentlemen, \$1.00; ladies 50c. A hearty invitation is extended to all.

BRITISH PRINCE
SUGGESTED FOR
GREEK THRONE

LONDON, Oct. 25.—The British royal family seems to be looked upon as a sort of reserve to supply kings for Europe. Not only is one of its members considered as a king for Ireland, but there is a serious proposal that England should supply the king for Greece.

The proposition which came from Venizelos, is not favorably received here and I am told authoritatively it will be refused.

The condition upon which it was broached was in the event of the death of the Greek king, and Constantine refusing to give his final binding assurance to renounce his rights to the throne and withdraw from all intrigue to influence it.

Whitehall told Venizelos they thought the Balkan situation so delicate that no outsider could handle it. It is suggested that Prince Paul, the youngest brother of King Alexander, would be a candidate if Constantine were eliminated. Venizelos replied that such a move might play into the hands of Constantine, because of his influence over Paul.—Calgary Herald.

ARE WINDING UP
AFFAIRS OF THE
COMMERCE BOARD

OTTAWA, Oct. 25.—Instructions have been issued to the secretary of the Board of Commerce to wind up printing matters, so far as possible, and reduce the staff to a minimum. Upwards of a dozen employees will be laid off. There will be no functioning by the staff, and no action initiated until the privy council adjudicates upon the constitutionality of the board's powers. After that it will be for the government to decide what is to be done. If a new board is to be appointed, its personnel will have to be selected and its functions defined. There is some talk of doing away with the regulation of profits, and, instead, to appoint a judge to deal with combines or other restraints of trade.

When the case before the privy council will be argued is uncertain. It had been hoped that the argument would take place in November, but the court, in granting leave to appeal, suggested that the provinces be parties to the case, and the latter evidently are not in a hurry. The case, in consequence, may not be heard till spring.

Several matters of acute public interest go by the board as a consequence of the conditions which have developed. One of the proposed investigation into the alleged combine of canners, delayed, it is explained, owing to difficulty in securing competent chartered accountants. Another is the investigation in the textile industry, upon which an interim report was made, while a third is the profiteering charges against Toronto restaurants.

The government will decide tomorrow if the correspondence connected with the resignation of the board will be made public. It is usual to do so. But in some cases it has been withheld for parliament. In this case no delay is expected.—Calgary Herald.

SUBSCRIBERS PAYING
FOR THE TIMES
DURING PAST WEEK

Following are the names of those paying subscriptions to The Times during the past week:

George Schuiteman, Pearce; A. T. Leather, Macleod; J. W. Baird, Macleod.

By a law passed in 762 B.C. it was enacted that every citizen of Rome who had three children should be excused from all troublesome offices where he lived.

TERENCE MacSWINEY
DIES FOLLOWING
HUNGER STRIKE

LONDON, Oct. 25.—Terence MacSwiney, lord mayor of Cork, died at Brixton prison, this city, at 5.40 o'clock this morning. His death followed a hunger strike of more than seventy-three days, eclipsing any in the annals of the medical world.

MacSwiney, who had been unconscious for several days, died not recover his faculties before he died. Father Dominic, his private chaplain, and his brother, John, were with him when the end came. Father Dominic was at the prison all night and did not leave until several hours after MacSwiney passed away.

Relatives Not Present
John MacSwiney and the chaplain who had been waiting down stairs in the prison were told by prison officials at 4.35 o'clock that they should go to the mayor's bed side as they thought death was approaching. The brother asked for the privilege of communicating with other relatives who were not present, but the officials refused him the use of the telephone.

John MacSwiney immediately conveyed word to the widow of the lord mayor who was staying at a west-end hotel with Mr. and Mrs. O'Brien, the former being the London executive of the Irish Self-Determination League.

Mrs. MacSwiney, accompanied by her parents and the Misses Annie and Mary MacSwiney, sisters of the lord mayor, arrived at Brixton prison at 9.30 o'clock.

Take Body to Ireland

News of MacSwiney's death had not become known in the district around Brixton prison until about nine o'clock.

The usual large contingent of police was on duty inside the prison grounds to prevent any demonstration, but outside and along the road leading to the main highway, there were no unusual signs of activity. No civilians were awaiting there as they usually did in the early days of the lord mayor's hunger strike.

Violently Anti-British

Terence MacSwiney was forty years old, and was one of the most prominent Sinn Feiners. He started life as a draper's assistant, but became a poet, author and playwright before taking up politics seriously. Later he became violently anti-British.

While in Wakefield jail, Yorkshire in 1916, he met Muriel Murphy, daughter of a wealthy Cork distiller, who visited the jail, and shortly after they were married, despite much opposition.

MacSwiney was elected as a Sinn Fein member for Cork to the British parliament in 1918, but never took his seat. He was present at the first session of the Irish parliament in 1919 when the establishment of the republic was confirmed and was elected lord mayor of Cork in 1920.

It Worked Once Before

For various political offences he had been in jail with brief intervals of liberty since January 1916, and in October 1917, secured his release from jail by hunger striking.

It is probable the inquest will be held at the prison today after which the body will be turned over to relatives.

Officials at the home office withheld (Continued on Page Six)

WIFE IS SHOT
BY HUSBAND

MOOSE JAW, Oct. 25.—An alleged attempted murder was committed at 7.45 Sunday morning when Mrs. Cavanagh was shot behind the left ear by her husband with a shot gun and is now lying in a critical condition at the Providence hospital.

Mrs. Cavanagh, who resides with her parents, was just about to leave for her employment in the C. P. R. when her husband called at the house and started to walk down town with her. After proceeding a short distance several eye-witnesses noticed the two struggling. Mrs. Cavanagh managed to break loose from her husband who immediately loaded a shot gun and fired, the charge entering behind the left ear. After firing the shot Cavanagh walked down the main street where he was met by the police and taken into custody.—Calgary Herald.

MACLEOD MARKETS

Below are given grain and produce market prices in Macleod, the grain quotations are those current up to 3 o'clock on Thursday of each week, and produce markets are Thursday morning's quotations each week:

LOCAL AND PERSONAL

C. Cowan was a business visitor to Calgary on Wednesday of this week.

W. K. Mackie is having his bungalow on 21st St. painted.

Jack McNab, late of the Midland Motors staff, is now engaged at W. Whitworth's.

H. S. Pelletier, of Monarch, was a business visitor in Macleod on Wednesday of this week.

Miss Gower, Dorcas Secretary W.A. Huron W.A. Ontario, is the guest of Rev. and Mrs. Middleton.

Major Church, of Edmonton, spent Sunday in Macleod as the guest of Mr. and Mrs. T. B. Martin.

Mr. and Mrs. A. Telfer were the guests of Mr. and Mrs. W. K. Mackie during the past week.

The Whitefoot Photo Service has lately installed a new and up-to-date printing machine.

Mrs. (Capt.) Baker, formerly of the Blood Reserve, Macleod, and who spent the summer in California, is the guest of Mr. and Mrs. G. C. Ives.

Alex McDonald motored to Standoff Wednesday to make preparations for threshing his big flax crop on the Geo. Pearson place.

Bekah Chapter A.F. & A.M. are putting on a smoker and whist drive on Tuesday, November 2nd. All Masons are invited to attend.

Mrs. E. O. Pinnell, (nee Helen McFarquhar) of Calgary, is visiting her parents, Mr. and Mrs. George McFarquhar.

Mr. and Mrs. O. E. Bailey, of Cowley, Alta., have been guests of Mr. and Mrs. A. T. Leather during the past few days.

Miss May Drinkwater, of the City Hall staff, returned on Wednesday morning from a short vacation spent with friends in Lethbridge.

Mrs. G. C. Raitt and son Allan returned on Friday last from a few weeks visit with relatives at Aberdeen, South Dakota.

Miss Winnifred McDonald, of Macleod and Mr. Donald Darrach, of Ottawa, Ont., were quietly wedded a couple of weeks ago.

A. D. Johnstone, formerly of Macleod, now of Milestone, Sask., passed through town on Wednesday, en route to his farm south of here.

T. Laycock, of Glenwillow, has moved into town for the winter. Tommy says he will demonstrate the curling game properly to the local boys this season.

Considerable annoyance is being caused in town by stock running at large. Owners who consider this in the nature of a hint to be profited by may save pound fees.

Mrs. R. E. Noble, of High River, was the guest of Mr. and Mrs. W. T. Charlton and Mr. and Mrs. W. T. Fleming during the past week—the three ladies named being sisters.

Punkin center news—The Mennonites brought in about 150 pumpkins the first of this week and the local youths have bought up the entire stock to make Jack O'Lanterns for Halloween celebration.

George Pearson reports that threshing returns show 60 acres of his wheat at Standoff averaged a little better than 30 bushels to the acre. Mr. Pearson's crop yielded excellently throughout.

S. G. Stewart, of Granum, is the guest of Mrs. H. C. A. Stewart.

Glenwillow polled 12 wets and 1 dry? ? ?

Mr. Peck, of Pincher Creek, was a Macleod visitor this week.

P. Koole, of Pearce, was a business visitor in Macleod Tuesday last.

Mrs. D. A. Bain, of Lethbridge spent several days in town last week.

Joe Hodge, formerly of Macleod now of Clark's Fork, Idaho, was a Macleod visitor during the past week.

Chief Engineer Pearson is a busy man these days relieving Engineer Hill, who is absent on holidays.

Mrs. J. Allen, of 23rd St. visited friends in Lethbridge the first of this week.

Mrs. J. Forest, of Calgary, has been the guest of Mr. and Mrs. M. Black during the past week, being a sister of the latter.

The L.O.O.F. dance on Wednesday evening drew a fair attendance. The music was excellent and the affair was an enjoyable one.

Capt. R. F. Barnes, of the Canadian Air Force, left on Tuesday for Camp Borden to put in twenty-eight days flying duty.

Geo. Miller, brother of Mrs. D. R. Carve, who has been visiting at the Carve home for a short time left on Monday for Bow Island.

The lakes and sloughs north of Calgary have been frozen over for the past ten days—nothing like that in sunny southern Alberta.

Mrs. S. T. Hatton, of Pincher Creek is spending several days at the home of Mr. and Mrs. J. S. Thornley. Mrs. Hatton is Mrs. Thornley's sister.

Arthur Scheer returned on Wednesday last from Redlaw, Alta., where he has spent the past couple of weeks.

Mrs. W. V. Price, of Macleod, Alberta, arrived in the city Sunday morning to spend a short vacation with her brother, Clifford Miller, 250 Bell Street.—Ottawa Journal.

Rev. Canon Gould, General Secretary M.S.C.C., Toronto, is making a visit of inspection to the Peigan and Blood Schools, and is making the round of the Schools and the Summer Camp at Waterton Lakes in company with the principal, Rev. S. Middleton.

The partnership existing between D. J. Grier, J. Swinerton and R. J. Jones in the Empire Hotel business has been dissolved by mutual consent and the business will in future be carried on by J. Swinerton and D. J. Grier.

S. Baker, lately with Reach & Co. has resigned his position with that firm, and is busily engaged making preparations to start a meatery—a cash and carry butcher shop, which will be located opposite the Town Hall.

H. H. Hollier, merchandise superintendent of the Hudson's Bay mercantile interests in Canada, with headquarters in the Vancouver executive office, has been here for the past few days assisting the big store staff in organization of their closing out sale.

Mr. D. L. Marison, local sub-collector of Customs has been granted a leave of absence, during which time Assistant Inspector H. Legge, of Calgary, will be in charge of the office.

Mountain View Lodge No. 4 I.O.O.F. conferred the third degree on an initiate on Thursday evening last week. The lodge has applications from candidates for membership for several months in advance.

Mrs. E. Walsh, of north of Macleod, has recovered sufficiently from a recent operation to be able to leave the hospital and is the guest of Mrs. Kenefick for a few days before returning to her home.

Rebekah Lodge I.O.O.F. initiated a candidate into the mysteries of the order at the regular monthly lodge meeting last Monday evening. There are several prospective candidates for membership looming on the horizon and great social activities are projected for the winter months.

Mr. and Mrs. J. W. Moreash, accompanied by Miss T. Taylor and Miss Bertha Miller, motored to Lethbridge last Sunday to visit friends. Mr. Moreash called on L. (Dad) Bubser, at Lethbridge Hospital and reports Dad to be looking fairly well.

Cool weather is a reminder that the curling season approaches—organization is generally late with the local fans—why not get busy early this year and have everything in shape to go ahead with the advent of the first sharp weather that will make ice available? What?

Former Chief of Police S. O. Lawson (now Chief of Police of Fernie) arrived in Macleod on a business trip on Wednesday evening of this week. Chief Lawson says he likes Fernie but of course misses the comradeship of his many Macleod friends and the associations of his long sojourn in this city.

The Anglican Young Peoples Association gave their first dance for this season in the Parish Hall last Monday evening and the function afforded an exceptionally pleasant evening to all present.

The members of the local telephone staff were entertained last Friday evening by Miss Vera Benson at her home. A delightful chicken supper was served, after which the guests enjoyed an informal dance till the beginning of the small hours.

Miss Mary Gates, of Redlaw, and Mr. James Wilton McNab, of Macleod were quietly united in marriage at Lethbridge on Tuesday, October 12th. The happy couple spent their honeymoon at United States points and have now settled in Macleod to live.

H. W. Bright, secretary-treasurer of Bright Municipality No. 69, returned on Saturday last from Edmonton, where he attended the executive meeting of the Municipal Districts Association, whereat arrangements were made for the holding of the association's annual convention which will be held in Calgary on Monday Tuesday and Wednesday, November 22nd, 23rd and 24th.

A very enjoyable evening was spent at the home of Miss Margaret McCartin on Monday evening. Cards were played after a dainty supper was served and the rest of the evening was spent in games and dancing. Those who were present: Mr. and Mrs. W. J. Ryan, Mrs. Perry, Misses Drinkwater, Trotter, Parker, Connolly; Messrs. McFarland, Laval, Ryan, Sergeant Healy, Corporal Anderson, Constable Bohne and others.

T. Clarke, of Rathwell, returned on Saturday evening last from a five months tour of Washington State. Mr. Clarke speaks enthusiastically of conditions in Washington's irrigated areas and says that irrigation and small holdings farmed intensively will prove the salvation of this district and in view of the fact that irrigation is practically assured here he is glad to be back and satisfied with Macleod's prospects.

Miss Helen Ferguson has been steadily improving in health since the nearly fatal accident which befell her in the gas explosion at the Ferguson home last spring. Miss Ferguson spent considerable time in the hospital in a helpless condition following the accident, but has latterly been at the family home and is now so much improved that she is able to sit up in a wheel chair and encourage her relatives and friends in their hope for ultimate entire recovery.

W. Renwick, a Macleod old-timer has resigned his position with W. G. Andrews Hardware and is leaving in a few days to assume the duties of a new situation with Wood-Vallance & Adams, wholesalers in hardware Calgary. Mr. Renwick has been a resident of Macleod for nearly twenty years—was engaged in the retail hardware business for himself for about 8 years, later selling to W. G. Andrews, with whom he has since held a managerial position. Many warm friends of Mr. and Mrs. Renwick regret their departure.

METHODIST CHURCH

Service for Sunday, Oct. 31st.
11 a.m., subject—"The Goodness of God."
2:30 p.m.—Sunday School.
7:30 p.m.—The echoes of the referendum; where are we now?
W. A. Lewis, B.A., Pastor

WATCHING THE WORLD GO ROUND

You can, in your own home, watch the earth go round if you carry out the following very simple experiment. Get a piece of strong string about ten feet long. Attach one end of it to a six or seven pound weight, and the other to a rafter in an outhouse, or to the centre of the ceiling in a room, if you can manage it. Start the weight swinging carefully; then draw a straight chalk line on the floor directly under the track followed by the weight. As the weight is attached at one point only to the ceiling, no gentle movement of the latter is going to alter its direction of the weights swing. Come back in three-quarters of an hour. You will find that the weight no longer swings directly over the chalk line. It looks as if the weight has altered the direction of its swing but it has not. It is the earth and the chalk line with it which have moved. If every ten or fifteen minutes you make a note of the difference between the weights track and the chalk line, you will really be watching the earth moving. The weight must not be touched after once it has been set swinging. It will swing for a considerable time if the string is long enough.—Family Herald.

GAS AND OIL NEAR BELLEVILLE

BELLEVILLE, Ont., Oct. 22.—Experts are investigating stories of the finding of large gas and oil deposits on the Roche farm near Louisdale, 15 miles from here. Walter Reeves of the General Oil Fields, Ltd., a British corporation controlling Mexican oil fields, is in the city and will look over the property.—Lethbridge Herald.

The Nobility Chocolate Co., with head office in St. Thomas, has been incorporated with a capital stock of \$7,000,000.

NEARLY A MILLION IDLE IN GERMANY

BERLIN, Oct. 27.—The municipal employment bureau announces that 733,000 men and women in Germany are idle. Of these 150,000 are in Berlin.

The labor ministry estimates that soon three million will be unemployed or on short time. Women constitute approximately one-fourth of those idle.—Lethbridge Herald.

John Mauransky and Frank Panther, of Sandwich West Township, swore that with the aid of their wives they had consumed 28,000 bottles of beer in 60 days, but the magistrate fined them \$2,000 each.

RUTH BUDD IS PERFECT SPECIMEN OF WOMANHOOD

Ruth Budd, who plays the feature role in "A Scream in the Night," which Select Pictures presents at the Empress theatre on Wednesday and Thursday, can legitimately dispute the claim of others to the title of the world's perfect woman, in the opinion of scores of critics, both here and abroad, who have seen this new and unique screen personality during her vaudeville tours.

As one reviewer wrote: "We used to think that Arnette Kellerman had that 'wonderful form' business cornered, but after seeing Miss Budd we're going to sing, 'Then Along Came Ruth.'"

That Miss Budd can today call herself the perfect woman is the result of systematic exercise. As a child she was frail and slight. To build up her strength her father put her through a course of calisthenics, later setting up rings and horizontal bars for more strenuous work.

Miss Budd is perhaps the only actress who is able to portray the role of Darwin in "A Scream in the Night." In her interpretation of Darwin, Miss Budd is seen flitting about from tree to tree, leaping from branch to branch, and flying forty and fifty feet aloft through fifty feet of space separating one tree from another.

GROWTH OF THE GRAIN ELEVATOR

The grain elevator system has grown enormously in Canada and developed rapidly in the last few years. This growth and development have so far been confined mainly to the prairie provinces of Manitoba, Saskatchewan, and Alberta, but the system is attracting more and more attention in the other provinces, particularly in Ontario, where several wheat growing and shipping centres notably Toronto, are agitating for the erection of elevators. Nor is it only in numbers that the system has been extended but the increase in size has been such that some of the structures can fairly be termed mammoth, such for instance as those at the head of the lakes. There are, according to the Hon. George Langley, Minister of Municipal Affairs for Saskatchewan, not fewer than 3,000 elevators in the three provinces referred to, from 40 to 60 feet high and capable of storing from 20,000 to 30,000 bushels apiece on the average, a few reaching to twice the greatest enumerated capacity. In other words upwards of 110,000,000 bushels of wheat can thus be stored at the one time. These facts and figures are taken from an interesting article by Mr. Langley in the September number of the Agricultural Gazette of Canada. By the terms of the Canada Grain Act, the owners of the elevators, mostly private individuals or incorporated companies, are compelled to accept all grain offered by farmers, unless wet or unstable with safety, hence the general and common use of the system. The elevators are all licensed by, and are under the supervision of the Board of Grain Commissioners of Canada.

WESTMINSTER ABBEY FUND

His Honour the Lieutenant Governor has received a communication from the Dean of Westminster Abbey, London, England, stating that there must be very extensive repairs to Westminster Abbey. It is estimated that it will require at least one million dollars to do all the necessary work. The Dean suggested that it would be very appropriate if contributions were made from every corner of the Empire, that this "resting place of England's Kings" should be preserved to the Empire and not allowed to decay and become a ruin. It was further suggested that the Lieutenant Governor of each province open a branch of this Restoration Fund at Government House, and that the people of each province be solicited to contribute to this very worthy fund. His Honour the Lieutenant Governor of Alberta would be pleased to receive and forward to the Trustees of the Fund, any contributions which the citizens of Alberta may feel pleased to make.

GERALDINE FARRER IN THE ROLE OF A SPANISH GIRL

In her latest Goldwyn picture "The Woman and the Puppet," Geraldine Farrer appears in an absorbing story of Spanish life. She is ably supported by her husband, Lou Tellegen, and an all star cast, including the famous French actress Madame Rose Dione and the well known Spanish dancer Christina Pereda. The story in detail follows:

Don Mateo Diaz (Lou Tellegen), a young Spanish nobleman, attends the brilliant carnival in Seville with his paramour, Bianca Romani (Dorothy Cummings). They pause to watch a Spanish gypsy dancing on the street, but their attention is distracted by a bewitching young cigarette maker, who mimics the gypsy in inimitable fashion. When the gypsy pounces angrily on the girl to scratch and fight her, and the girl retaliates with spirit, Don Mateo prevents the police from carrying the two battling contestants to jail.

Don Mateo is rich and for that reason used to paying for what he wants and getting it. He cannot understand Cocha when she refuses to accept a gold coin and when she repulses his

advances. "You cannot kiss me in return without truly loving me," the girl warns. Don Mateo isn't rich enough to buy her, which, of course, incites his determination to crush her proud spirit.

To her home in a squalid quarter, Don Mateo comes every day and arranges with her mercenary mother to pay the family bills so that Concha may amuse him and not go to the cigarette factory to work for a pittance. Still the girl attracts and refuses until, in desperation, he threatens to leave her. The girl, suddenly alarmed, promises to be his on a certain Sunday. But, learning of his financial arrangement with her mother, she goes to Cadiz to dance in a wharf cafe and realize her zeal for independence. Her passion dance thrills her audiences and also Don Mateo, when he at length finds her. When her employer compels her to dance half dressed for English traveling gentlemen, Don Mateo cannot believe the girl is still virtuous.

She has spoken to him saucily and dangled him like a puppet, because he has too often used the manner of a rich man with her, a man used to toying with women. She wants no half happiness, but everything or nothing, yet when he asks her to be his wife, she says her life in the sailors' cafe as made her unworthy. Don Mateo makes her leave the place and live with her mother in a mansion he provides. Jealousies, quarrels and tricks of whim carry the lovers through a series of clashes until a real understanding is reached. This Goldwyn picture will be shown at the Empress theatre on Friday and Saturday. No advance in prices.

WHY NOT GET ACQUAINTED WITH YOUR BATTERY?

"Talk to the average motorist about carburetor adjustments, cylinder synchronism, gear shaft alignments, or any simple little matter like that," remarked Mr. W. O. Hoodless, manager of the local 'Exide' Service Station, "and he's right with you on every count. Ask him to explain to you the action of his storage battery and he'll usually go down to the end of the class without a struggle. "And yet there is no real reason for this. Any chap who can figure out the elementary mechanics of an automobile possesses a plenty of intelligence with which to dope out his battery. And he ought to do it. Experience proves that the more a motorist knows about the internal arrangements of his car, the better care he is going to take of them—and my personal opinion is that many a good starting and lighting battery is ruined just because its owner doesn't know the few simple principles of its action. I'm not much of a lecturer, but it is my object, just as it is that of every other 'Exide' Service Man the country round, to help my customers to get the absolute best out of their batteries; and I'm willing to sit down any time and give them an enlightening little discourse on the whys and whys of storage battery theory and practice. I'm there to bet that the average life of the average battery in these parts would be considerably lengthened if they absorbed my advice and that my job would be a more cheerful one. For even so husky a product as the 'Exide' is a good deal like the garden variety of husband—it's much better to live with when it's properly understood."

GREB KAYOES GUNBOAT SMITH

SOUTH BEND, Ind., Oct. 22.—Harry Greb of Pittsburgh knocked out Gunboat Smith in Brooklyn in the first round of their ten round bout here last night. Greb dropped his opponent with a left hook after but a few seconds of fighting. The men are heavyweights.—Lethbridge Herald.

CHRIST CHURCH

Sunday, October 31st—8 a.m., Holy Communion. 11 a.m., Matins and Litany, teacher, Rev. W. T. H. Cripps of Claresholm. 2.30 p.m.—Sunday school. 7.30 p.m.—Evensong. Monday, Nov. 1st, All Saint's Day: 10 a.m.—Holy Communion.

The younger members of Christ church congregation and their friends held a very pleasant dance at the Parish hall on Monday last. Excellent music and refreshments were provided and the whole evening was thoroughly enjoyed by all present. In the course of the proceedings the work of organizing a local branch of the Anglican Young People's Association was continued and the following committee was appointed to draw up a program for the season and arrange for the next meeting. Messrs. Lloyd Davis, R. W. Smith, Chas. Campbell, Const. Williams, R. C.M.P., Miss Root, Miss G. Genge, Miss M. McNeill. It is hoped to hold a series of meetings for social, literary and other purposes on the lines adopted by the A.Y.P.A. throughout Canada.

WHEAT-GROWING DISCOVERY MADE BY M. PION-GAUD

PARIS, Oct. 5.—(By Mail.)—A discovery which is expected to revolutionize wheat growing in France and perhaps render this country a heavy exporter instead of a heavy importer in grain, has been announced by M. Pion-Gaud, the Luther Burbank of France. Tests have shown that cultivation under the new system will bring about a forty per cent. increase in the crop and this has been done on worked out, exhausted land. The inventor estimates that the general use of his formula would result in an increase of 20,000,000 quintals (hundredweights) of wheat a season with a saving of one-third of the seed grain now employed.

The French ministry of Agriculture is keenly interested in the new discovery and has voted appropriation for official tests to be made in the department of Piseire.

On Worn Out Land

M. Pion-Gaud, speaking of his experiments, said: "In order to judge the value of my method it must be remembered that all my tests have been made on worn-out, exhausted soil—soil on which not even the thinnest crop of hay has been possible in the past. Before dreaming of any sort of a crop it would have been necessary to have fertilized to the extent of 100 wagons of fertilizer to 80 acres.

"For the seeding I have but two-fifths of the seed usually employed in similar soil. I used one and one-half kilos of super-phosphates or one hundredth part of that ordinarily used. I am understating my success when I put the crop at twenty-five per cent. larger than that obtained from similar soil on which fertilizer is used and which is worked in the usual way.

Cultivation Method

"Before sowing I plowed my field with a plough of a special design which is six feet wide or six times wider than the usual variety. This plough was passed eight or ten times through the soil to obtain aeration. This does not entail arduous work as the soil becomes easily breakable after the first ploughing. The soil thus ploughed is cleaned of all weeds which permits easy growth.

"After having dipped the seed in a solution, the composition of which I am not ready to reveal, I submerged it for several minutes in a solution of sulphate of copper. The seed, after this treatment, was put in heaps and left until germination began. Then the seedlings were sown by the machine in lines at a depth of two and a half centimeters. The sowing

GUARD AGAINST CHILLS

Simple Precaution Against Danger of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, or soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.

machine was equipped with two hoppers, one containing the seed wheat, the other containing the super-phosphates which was placed in the ground in direct contact with the grain."—Calgary Herald.

Special License Inspector, W. J. Connors, seized 4,000 cases of liquor in Windsor express office, valued at \$120,000.

U.F.A. READY FOR BIG DRIVE

Greenfield Confident that Alberta Organization will make Record Showing.

Herbert Greenfield, Westlock, Vice-President of U.F.A. and chairman of the U.F.A. organization committee, advises that everything is in readiness for the big drive during the first week in November.

Most of the preliminary work has been done and it is expected that on November 1st and November 2nd upwards of 3000 enthusiastic U.F.A. supporters will be in the field visiting their neighbors and soliciting for memberships in the association.

The organization work in both Manitoba and Saskatchewan has been progressing favorably and reports from 'district captains' indicate that the morning of November 1st will see upwards of ten thousand active workers beginning their canvass in all the rural districts in the three provinces.

In this drive an endeavor will be made to have a representative of the farmers association visit every resident farmer between the City of Winnipeg and the Rocky Mountains. The head of every household will be asked to contribute the sum of \$6.00—no more no less. This amount will pay for a year's membership in the association, a year's subscription to the official organ and leave \$2.00 to be used by the central and district boards for organization purposes.

Associated with Mr. Greenfield on the Alberta Organization Committee are L. M. Gotsch of Red Deer and Snow Sears of Nanton. All are members of Board of Directors of the U.F.A. The committee has fixed an objective of 50,000 U.F.A. members for the year 1920 and all are confident that this figure will be reached.

BREED BETTER CATTLE

Cattlemen on the Western Canadian
ranches are reported to be seriously
concerned about the uncertainty fac-
ing the export of cattle on the hoof
to the United States. They fear that
after the coming elections a tariff
may be erected against the importa-
tion of stockers and feeders from the
Dominion. Last year the value of the
animals exported was roundly \$50-
000,000. This has been a growing
trade since 1910 when 158,000 cattle
were shipped over the line. In 1919,
the total had risen to 342,000 and for
the fiscal year ending March last,
the figure was 516,000.

But there is a reassurance forth-
coming. Canadian packers realize the
seriousness of any threatened curtail-
ment of livestock production and be-
lieve that if a tariff contingency had
to be met they could fully take care of
all the cattle that can be raised if
two conditions are fulfilled. The
"scrub" bull must go so as to raise
the general quality of our beef and
stock-raisers must provide a steadier
supply than in the past. These two
factors are the main drawbacks to the
development of an export trade in beef
similar to that which has proved for
25 years the mainstay of our bacon
industry.

During 1919, out of 698,849 cattle
marketed at stockyards for home
slaughter, 359,418 graded "good"
and 339,431 graded "common." That
is, 48.5 per cent. graded "common."

With so much unsuitable material
to hamper, an export market cannot
yet be established to compete with
the high class beef from Argentina
and Australia. But if quality is im-
proved and supply well regulated,
packers emphatically ensure stock-
breeders—this applies to east and
west—of readiness to aid in opening
and building up a valuable market
for all beef animals bred on Canadian
farms.

OUR LIQUID BOUNDARY

Canadian orators at American con-
ventions have spilled a lot of elo-
quence regarding our four thousand-
mile boundary line. Without forts
and without armed garrisons posted at
regular intervals, it has been held up
as an object lesson in international
concord and amity.

There are customs offices scatter-
ed here and there along those four
thousand miles and the officials of
both countries manage to collect a
goodly sum every year in excise fees.
Since the United States went bone
dry, however, an astonishing quan-
tity of Canadian whiskey has been
carried across the line by automobile,
by covered buggy and even by the
old-fashioned democrat, to say noth-
ing of the motor launch. The lonely
miles of prairie country in Alberta
and Saskatchewan have offered, and
still offer, a safe via media to travel-
ing merchants who buy Canadian or
Scotch whiskey in this country for

something like three dollars a bottle
and dispose of it to their droughty
neighbors across the boundary at ten
dollars a quart.

Brisk as is the business of rum-
running in the west and in the
Detroit region, we are assured by
eastern observers that it is not as
intense as the trade carried on in
the far east. Along the Maine, Ver-
mont, and New York frontier the
boundary line is fairly submerged
with liquid refreshment. In the Lake
Champlain district there are 50 roads
leading from Quebec province across
the line and on every one of them
every day and night in the week
alcoholic motor cars and wagons are
making quick, lucrative and absolute-
ly safe runs into Uncle Sam's very
dry country.

The customs officials seem to be
the only persons the whiskey-runners
have to fear, and the latter servants
of the great republic do not move
hand or foot to detect smugglers un-
less the stuff is right under their
noses. As for the general population
of Americans along the boundary
line, they do not seem to care whether
the international line is becoming
groggy or not.—Calgary Herald.

LIGHTNING

Lightning is extremely healthful,
declares a scientist who has made
that his life-time study. He doesn't
mean that it is healthful to the per-
son lightning strikes. No, he doesn't
mean that lightning strokes will cure
the ill as fakirs said they would cen-
turies ago. What he means is this:

"Lightning produces nitric acid, and
cleans the whole atmosphere of nox-
ious exhalations."

Had there never been a flash of
lightning upon this earth in all the
years of its existence, the air now
would be so foul that living would be
impossible, some scientists say.

And, by the way, have you heard
that healthful authority say pie—that
pie you like so well—kills more hu-
man beings each week than lightning
does in a year?

Keep those findings of experts in
mind when next a thunder storm seeks
to terrify you with its flashes of fire
through the skies.—Morning Albertan.

TESTING NEW SHOES

Look inside new boots and shoes
before buying them. The inside will
tell you a good deal more about their
quality than will the outside. The
average person looks at the bottom of
the sole in order to judge if it is thick
enough and likely to keep out the
water. The bootmaker or the shoe
expert will feel the sole on the inside
of the boot or shoe, if this feels solid
and is of the right thickness, he will
know the boot is a good one. The tops
of the boots and shoes are judged by
the expert in the same way as are the
soles, this is by the sense of touch. If
the leather feels coarse it is inferior
in quality, while if on the other hand
it has a feeling of fineness about it,
the quality is all that need be desired.
Another method by which the quality
of the tops can be ascertained is to
bend them once or twice. Good-quality
leather such as is used for tops is
very pliable, while inferior is not.
On boots that have been in use for
some time, the leather becomes spongy
and soaks up a certain amount of wa-
ter. This is why old boots, although
they may not need repairing, will
often let the wet through.—Family
Herald.

MANAGEMENT OF SOILS TO PREVENT BLOWING

(By W. M. Jardine, Director of Kan-
sas Experiment Station.)

Winds of high velocity sweep over
much of the Great Plains area during
the spring and early summer months
and during periods of drought, and
cause the soil to blow and drift unless
some system of soil management is
adopted to build up the humus con-
tent of the soil and make it less sub-
ject to blowing. As long as most
of the land remained in grass, and that
under cultivation retained its virgin
qualities, the winds were less des-
tructive. From year to year, how-
ever, more and more areas have been
brought under the plow and the older
cultivated lands have become depleted
in humus through shallow plowing
and continuous cropping of wheat,
until now there are vast areas in the
sub-humid area practically devoid of
vegetation, nothing but a sea of shift-
ing, drifting soil.

Experiments carried on at the var-

Men went mad for her kiss-

FRIDAY and SATURDAY

ious branch experiment stations in
western Kansas demonstrate the most
successful means of controlling soil
blowing to be building up the organic
content of the soil, cultivating at right
angles to the winds and leaving the
surface soil in a rough or cloddy con-
dition. A rough top soil checks the
movement of the soil particles, the
smaller ones lodging in the crevices,
leaving the heavier, clodded portions
elevated and protective. When the
ground is left smooth, particles of
soil are loosened and set in motion
by the wind. Manure, straw, or trash
furnish effective protection from the
wind when they are spread upon the
land uniformly, and are used to stop
blowing on land planted in wheat. The
subterfuge packer is used to work the
materia into the soil. A corn or beet
cultivator is sometimes run over the
wheat to loosen the top soil of the
field. Some wheat will be destroyed
but soil blowing is lessened because
of the rough surface produced.

The disk harrow is useful in con-
trolling blowing but the soil must be
damp when it is used. If the soil is
damp the harrow produces clods, while
if the soil is dry, a dust is pro-
duced and conditions are ideal for
blowing. The lister is giving good
results in the control of the soil in
areas subject to blowing. It is used to
prepare an early seed-bed for wheat
and check the movement of soil par-
ticles during the progress of a storm
by going onto the field and listing
out two or three furrows every five
to twenty rods, at right angles to the
wind, always. When damp soil is
listed packed layers of earth are turned
over rough and clodded.

Especially in districts where the
land is of a sandy character it is ad-
visable to plant crops in narrow strips
alternating fallow and cropped areas.
Sandy soils are the hardest to control
when they start to blow, as it is
more difficult to produce and main-
tain a rough surface on them than on
the heavier types of soil.

Soil blowing became so serious in
Thomas county that a year ago the
citizens organized to attempt to pre-
vent further damage to the adjoining
lands. The blown area increased
until the entire district was threaten-
ed with destruction. A fund of \$8,000
was raised by subscription among the
farmers, merchants, bankers, railroad
men, etc., and the citizens of Colby.
In co-operation with the Kansas Ex-
periment Station and the Rock Island
Railroad undertook to control condi-
tions. Strips of fifteen to twenty rods
wide were listed and planted to sorgh-
ums or corn and unworked strips
of equal width were left between. In
the main, however, three to four listed
furrows were run, ten to twenty rods
apart. This method was successful
and blowing was absolutely checked
on the 65,000 acres at a cost not to
exceed the amount raised. The lister
furrows will in time, fill with soil
and the land will have to be re-listed
but weeds and other vegetation are
already beginning to furnish protection
which will insure the permanent
control of the soil.

Almost any section of the Great
Plains areas, in the United States, or
Canada, is liable to suffer from soil
blowing. The methods herein de-
scribed for the control of this condi-
tion may be used in any part of this
area with equal chance of success.

The Kitchener and Waterloo Medi-
cal Association have decided to charge
\$2 for day calls and extra will be
charged for night calls.

We note that the Ma Ho Laundry
has been taken over by Mar Hong, an
old time resident of Macleod and who
used to run a laundry here some few
years ago. We are sure that his old
patrons will be glad to hear of this
as his work was always done most
satisfactorily.

NOT PERFECT

"It's a mistake to marry a man to reform him."
"Still, there are few women in whom a girl can't effect some improvement."

MAJOR DOUGLAS TRANSFERRED TO BRANDON, MAN.

Major R. Y. Douglas, for the past fifteen months commanding a flier of the R. C. M. P. at this point has been appointed to a like position at Brandon, Man. While many warm personal friends whom they have made during their stay here will regret the departure of Major and Mrs. Douglas, the transfer is in the nature of a preferment as Brandon is a pretentious city affording a wider scope of social activities and a lovely place to live in. Major Douglas and family leave in a few days for the wheat city and Inspector J. A. McDonald has assumed the command of the detachment here.

SETTLED OUT OF COURT

The action brought some time ago by the Honourable the Attorney General of Canada on behalf of His Majesty the King against Arthur G. Peuchen and the McLaren Lumber Company of Blairmore for damages for timber destroyed on Crown lands following the disastrous fire which burned over a considerable area of the McLaren Lumber Company's limits as well as Crown lands in July 1917, and also claiming compensation for expenses incurred in fighting the fire, which was expected to be tried at the special sittings of the Exchequer Court of Canada held in Calgary a few days ago before the Honourable Mr. Justice Audette, has been amicably settled out of Court between the parties. The Plaintiff on the recommendation of the Forestry branch of the Department of the Interior, being the Department most interested in the enforcement of the claim, has accepted a lump sum in full settlement of the claim for damages and expenses, being, however, a sum considerably less than the actual amount sued for and the Defendants have also paid the Plaintiff's taxable costs.

Had the action proceeded on its way through the courts, it is quite likely that the litigation would have been prolonged on account of the number of interesting points both of law and of fact, which were involved, but the settlement arrived at as shown above now disposes of the matter without further litigation or delay.

Mr. Loring H. Putnam of Blairmore issued the information on behalf of the Attorney General for Canada and Mr. J. S. Gillis of Blairmore conducted the defence on behalf of the McLaren Lumber Company.

DISTINCTION CONFERRED UPON VERE BROWN

The distinction recently conferred upon Vere Brown, superintendent of western branches Canadian Bank of Commerce, is cause for congratulation, not only for Mr. Brown, but for the Canadian west, in having a man of such outstanding ability that he is chosen for so important a post as one of the executive managers of the great National Bank of New York city.

The fact that Mr. Brown is leaving Canada is, however, a matter of regret, also, because he is outstanding as one of the first of the whole banking fraternity of Canada to realize that Canada's banking system, admirable as it is, did not fully meet the requirements of the farmers of the Canadian west and by precept and example to endeavor to make up for this deficiency. To Mr. Vere Brown, more than any other one man, is due the credit for the marked change of the banks towards the handling of live stock accounts, more especially, for it is an open secret that the other banks have largely followed the footsteps of the Canadian Bank of Commerce in this matter.

Encouragement has been given to livestock production not only by a better and more liquid system of loans, but the local managers of the banks have been encouraged and stimulated to take an active and practical personal interest in the developments of agriculture of the best class in their communities and very much good has resulted from this coming together of bankers and farmers.

There is no comparison between the attitude of the local bank manager of today towards livestock development, for example, and what it was ten years ago. A race of local bank managers have been trained up in the west to know and feel that the success of the farmers and the banks are one, and that it is simply "good business" to see that every farmer who is endeavoring to do good farming secures all the encouragement, in the form of loans that it is possible for the bank to afford him, while conditions today are not ideal they are a long way in advance of what they were ten years ago, and a very large share of the credit for this improvement is due to Mr. Brown.—Winnipeg Free Press.

HOSPITAL LADIES AID

ALBERTA VOTES DRY

(Continued from Front Page)
The Pass at least can scarcely be called a representative one.
In Frank, the vote is representative, it is said on the street here this morning. Frank gave a wet major-

ALBERTA VOTES DRY

(Continued from Page one)
ity of 30. The total vote was 70 which is considered a fairly full vote. So little interest was taken in the election through the Pass that it was difficult to get the returns. In Blairmore a group assembled in Lawyer Putnam's office to receive the returns. There was little excitement in the Pass towns. The liveliest centres were the G.W.V.A. clubs. The "Wets" had no organization, no headquarters and no workers in evidence. There are many this morning who are kicking themselves for not getting registered and getting in their votes. In a nutshell the situation among the "wet" faction is summed up in the classic phrase "of all the sad words of tongue or pen, the saddest of all, it might have been."

Among the prohibition forces this morning general satisfaction is expressed. They are jubilant especially at the magnificent showing in Coleman.

Macleod Goes Wet

MACLEOD, October 25.—October 25th, 1920, was an ideal day for anything, and a better day for an election could not have been given this part of Alberta. In Macleod, very little interest was apparent, until late in the afternoon, when both sides began to look up stray voters.

The dries were confident of carrying the constituency, while the wets were sure of a vote in their favor in town, and at the close of the polls they were 106 ahead. Hazelmere poll gave a wet majority of 33, while Rathwell's majority stood 25 to 11 in favor of the dries. Howe gave a wet majority of three; Glenwood stood 95 dry to 3 wet; Orton 31 dry, 1 wet; Long Bottom, 7 dry and 2 wet; Pearce 13 dry and 7 wet; Parkerville 17 to 3 in favor of the dries; Glen William had 5 wet majority; High River came in and adds 240 to the dry side. At 10 p.m. tonight the dries are leading in the Macleod constituency by a very good majority. In Macleod town the registered percentage was about two-thirds, and the number voting was just two thirds of those registered.

The wets have shown no interest, but they had many voters today. The dries have covered the whole district and carried on to work up to the very last and much information has been given those who attended their meetings. The churches, church societies and the U.F.A. and U.F.W.A. were active in to work for a dry Alberta.

Manitoba Dry

WINNIPEG, Oct. 26.—(Canadian Press)—With formidable affirmative majorities in virtually all of the rural constituencies, Manitoba went on record in yesterday's referendum as favoring "bone dry" prohibition with a temperance plurality which the final returns may show to be around 15,000. Winnipeg, however, revealed itself as the stronghold for the "antis," the complete returns giving a negative majority of 6,392. The pronounced adverse vote in this city was the feature of the referendum. St. Boniface also registered a heavy "wet" vote.

Wet City, Dry Country

The sharp cleavage of opinion between the sentiment here and that of the rural areas was manifest at the outset. In the five first country constituencies where the returns were completed a "dry" majority of over nine thousand was shown which in itself completely offset the adverse vote in Winnipeg. With later returns the figure may be substantially increased. A feature of the voting in Winnipeg was the exceptionally large percentage of electors voting, 44,190 out of 63,000 registering their opinions.

Saskatchewan in Dry Column

REGINA, Oct. 25.—Saskatchewan yesterday voted to stop the importation of intoxicating liquors. Latest figures available estimated the majority of the dries at nearly 10,000. The returns show the following: Regina City, incomplete yes 3385, no 3714, a majority of 329. Regina constituency exclusive of the city with 87 out of 160 subdivisions, give: Yes 1577; no 1180, a majority for the dries of 397. The latest returns available from the other constituencies show: Yes 21,027; no 11,421. The voting was exceptionally light, less than 50,000 of the 200,000 registered voters in the province going to the polls. Only one other city, Prince Albert, besides Regina shows a wet majority, while the constituency of Humboldt gives the following: Yes 472; no 504.

Prince Albert went wet by 626 majority; Moose Jaw dry by 722; Swift Current dry by 200; Yorkton dry by 550 and Regina City dry by 300.

N. S. Dry by 40,000

HALIFAX, Oct. 26.—Forty thousand is the estimated majority by which the "dries" won over the wets in the vote today on the referendum whether or not the importation of liquor into Nova Scotia will be forbidden. County majorities are all the way from six hundred to over six thousand, which by all indications will eventually be recorded for the victorious dries. With the exception of Halifax and Dartmouth, no large centres of the province had recorded a wet majority. Halifax gave the wets a majority of 1094, while Dartmouth added 114 and Woodside threw in its lot by another 216, making a total majority of 1424 for Halifax and suburbs.

Cape Breton county with such large centres as Sydney and Glace Bay. New Waterford, Sydney Mines and North Sydney recorded a majority for the dries of over five thousand, while the largest county recorded yet is that of Pictou, which, while still incomplete, was six thousand late tonight. The prohibition forces estimate the dries won by forty thousand.—Lethbridge Herald.

IMPOUNDED ANIMALS

Under regulations adopted by the Peigan Band of Indians on the 22nd day of September, 1920, and confirmed by His Excellency the Governor General in Council on the 13th day of October, 1920, under subsection (g) of section 58 of the Indian Act, for the establishment of a pound and the appointment of a poundkeeper on their reserve, the following animals have been impounded:—

Fifteen head of mares and geldings, branded 9 reversed L on left shoulder.

One bay two year old gelding, branded either E key or ER on right thigh.

One bay mare, branded box bar under on left thigh.

One bay two year old horse, brand appears to be I H I bar under on left thigh.

One aged bay pinto mare, branded O on right shoulder, 3S on left shoulder.

One bay two year old gelding, left hind foot white, strip in face, brand appears to be B reversed D with bar under on left thigh.

One brown mare, branded O on right shoulder.

One black gelding, branded circle with egg inside on left jaw.

One bay two year old gelding, branded 7 reversed L with bar under on left thigh.

One grey and one brown yearling filly, branded 6R with bar under on left thigh.

One bay two year old filly, no visible brand, left hind foot white, white strip in face.

One aged black horse, branded F on left shoulder.

One bay yearling horse, no visible brand, white hind feet.

THOMAS GRAHAM,
Indian Agent

TAX SALE

SALE OF LANDS IN THE MUNICIPAL DISTRICT OF BRIGHT NO. 69 FOR ARREARS OF TAXES.

Notice is hereby given that certain lands in the Municipal District of Bright will be offered for sale for arrears of taxes and costs, unless sooner paid, on Saturday, the 20th day of November, 1920, at 10 o'clock a.m., in the Town Hall, Macleod.

A full list of the said lands will be found in The Macleod Times in the issue of October 7th, or in the Secretary's office, Macleod.

Dated at Macleod, the 12th day of October, 1920.

H. W. BRIGHT,
Secretary Treasurer.

AUCTION SALE OF SCHOOL LANDS

Public Notice is hereby given that Auction Sales of School Lands will be held in the Province of Alberta at the places and on the dates hereunder mentioned:—

Vicking, Monday, November 15, 1920 at 10 o'clock a.m.

Leduc, Wednesday, November 17, 1920, at 10 o'clock a.m.

Consort, Wednesday, November 17, 1920, at 10 o'clock a.m.

Wetaskiwin, Thursday, November 18, 1920, at 10 o'clock a.m.

Donald, Friday, November 19, 1920, at 2 o'clock p.m.

Eckville, Saturday, November 20, 1920, at 10 o'clock a.m.

Okotoks, Monday, November 22, 1920, at 10 o'clock a.m.

Innisfail, Tuesday, November 23, 1920, at 2 o'clock p.m.

Didsbury, Wednesday, November 24, 1920, at 2 o'clock p.m.

Macleod, Wednesday, November 24, 1920, at 10 o'clock a.m.

Cardston, Friday, November 26, 1920, at 10 o'clock a.m.

Cochrane, Friday, November 26, 1920, at 10 o'clock a.m.

Jenner, Monday, November 29, 1920, at 2 o'clock p.m.

Empress, Wednesday, December 1, 1920, at 10 o'clock a.m.

The lands will be offered in quarter-sections or portions thereof, subject to a certain upset price in each case, and also to the terms and conditions as announced by the Auctioneer or official in charge, prior to the commencement of the sale.

Terms of Payment
One-tenth of the purchase price to be paid at time of sale and the balance in nine equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which case, the terms of payment will be one-fifth in cash and the balance in four equal annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid.

Scrip or warrants will not be accepted in payment.

For further particulars see posters. Lists of the lands to be offered may be had on application to the Secretary, Department of the Interior, Ottawa, to Frank A. Collins, Supervisor of School Lands, 506 Tribune Building, Winnipeg, Manitoba or to any Agent of Dominion Lands for the Province of Alberta.

By order,
J. W. GREENWAY,
Commissioner of Dominion Lands
Department of the Interior,
Ottawa, 1920. 33-3t

WIFE INVITES RIVAL

She invited the girl who was trying to win her husband right into her own home, did June Hillary, the heroine in "Stepping Out," the latest Paramount-Ince production that comes to the Empress theatre Monday and Tuesday next. Enid Bennett plays the part of this audacious wife who hit upon this means of showing the girl who was dining in high-toned cafes just what the husband really expected of a wife—to iron, scrub, cook, mend and economize on food. It was a daring experiment and just how it worked furnish much of the interesting action of this picture.

CHURCH TO JOIN LABOR IN FIGHT

LONDON, Oct. 25.—The English church has taken the hand of British labor in a new effort to end industrial unrest. A nation-wide appeal by organized workers from Lands' End to John's Groats by specialists in modern industry under the direction of the Council of Bishops and Labor leaders is projected. The new movement will be launched under the presidency of the Archbishop of Canterbury. In addition to the council leaders, the Bishops of Litchfield, Sheffield, Peterborough, and Durham, and also Lord Henry Bentinck, M.P., and Lord Farmoor, are taking active parts.

They declare the primary basis is considering all engaged in industry. In whatever capacity they may be, "that the laborer is a human being and not merely an instrument for production."

The council declares that if the church had combined earlier with labor there probably would have been no war and certainly a better peace.—Calgary Herald.

TERENCE MacSWINEY DIES

(Continued from Front Page)
comment on the case this morning aside from saying that every precaution had been taken and every means resorted to, including forcible feeding during the last few days, in an effort to keep the prisoner alive.

Unconscious 36 Hours
MacSwiney was unconscious for thirty-six hours before his death occurred, it is stated. Father Dominic, therefore was unable to give him the last sacrament but he administered extreme unction.

The cause of MacSwiney's death was heart failure, according to a statement issued at the home office.

This statement is considered an indirect answer to the criticisms of Dr. Josiah Oldfield, the physician and publicist, who had declared it was wrong for the lord mayor's doctors to administer meat juice and brandy. He said brandy was a poison and that a man at the point of death was very susceptible to poison. Dr. Oldfield added that when a man fasted a long time the first food he could endure was fruit juice. When one of the officials was asked today regarding Mrs. MacSwiney's absence from the bedside when death occurred, he replied by saying the restrictions which were recently imposed upon the visits of relatives were urged by the attending doctors as vital to the prisoner's own interests.

Feverish Interest in Cork
CORK, Oct. 25.—Feverish interest in possible developments caused by the death of Lord Mayor MacSwiney of this city which occurred in Brixton prison, London, this morning is mingled with the grief in which his death has plunged many people in South Ireland. Although these people appear to the highest degree of bitterness, it is regarded as extremely improbable that there will be any outbreaks or disorderly demonstrations in this city.

It is expected, however, there will be a considerable extension and intensification of guerrilla warfare against the police and military forces, which, anticipating reprisals, are doubling their vigilance, especially in remote districts.

Cork Jail Guarded
Cork jail, where a number of hunger strikers are in a grave condition, is guarded inside and out by soldiers equipped with machine guns.

There is an exceptionally large garrison here. It is equipped for any eventuality, has a number of tanks and armored cars and is ready for instant service. Military forces are so strong that it is considered improbable that any attempt at force will be made here.

It is understood the Irish parliament has been making appeals to all elements of the population to refrain from violence. This is also believed to be the policy of various influential

TERENCE MacSWINEY DIES FOLLOWING HUNGER STRIKE

(Continued from Page one)

leaders of the Sinn Fein movement. Whether such counsels will be followed by the younger element or by members of the Irish Republican Brotherhood, one of the most militant of Irish secret societies, remains to be seen.

Police are Active

LONDON, Oct. 25.—As soon as the news of the mayor's death began to spread through the city, small knots of people began moving toward Brixton prison. The police, however, did not allow any one to move into the street leading to the prison entrance, keeping the people moving so that a crowd would not form. Fears had previously been expressed that the lord mayor's death might cause a demonstration at the prison.

The MacSwiney family arranged during the morning for the removal of the body from the prison to St. George's cathedral in London as soon as the inquest was ended. The body will lie in state there until it is taken, probably on board a special train to Dublin where it is planned to place the body for a day or two in the Mansion House.

Predecessor Was Shot

MacSwiney's grave will be alongside that of his official predecessor, Lord Mayor Thomas McCurtain who was shot in his own home in Cork on March 20. MacSwiney will be the fourth to be buried in this plot, the others being MacCurtain, Sheamus McQuirk, who was taken out of bed in his Galway home and shot and Jeremiah McNestey, who participated in the Easter rising in Dublin in 1916.

upon the possibility of governmental interference, which, however, is regarded as unlikely. The progress of the funeral party from Dublin to Cork will be marked by a series of services at all the populous centers enroute. Final obsequies will be held in Cork Cathedral and interment will be made in St. Fin Bar's cemetery in Cork. The grave in which MacSwiney will be buried is known as "Republican Plot" which has been reserved for Irish Nationalist soldiers.

CASE AGAINST MacSWINEY
Alderman Terence MacSwiney, M.P., Lord Mayor of Cork, was tried on Aug. 16 by a District Court Martial assembled at Cork Barracks, on those specific charges under the Defence of the Realm Regulations:

1. With being in possession, on Aug. 12th (the day he was arrested) of a cipher which was the numerical cipher issued to the R.I.C. (Royal Irish Constabulary.)

2. With having this cipher "under his control."

3. With being in possession of a resolution pledging the allegiance of Cork Corporation (The City Government of Cork) to the Dail Eireann (The Irish Republican Parliament.)

4. With being in possession of a copy of the speech he made when elected Lord Mayor of Cork.

The findings were not guilty on the first charge and guilty on the second, third and fourth.

On Aug. 17 MacSwiney was sentenced to two years' imprisonment and was deported to England aboard a torpedo boat destroyer and lodged in Brixton jail, London, where he has since remained. He had begun his "hunger strike" on the day after his arrest and incarceration in Cork jail, and, on hearing the finding of the court, he said:

"I wish to state that I will put a limit to any term of imprisonment you may impose as a result of the action I will take. I have had no food since Thursday (Aug. 12.) Therefore, I will be free in a month."

The President asked: "If sentenced to imprisonment you will take no food?"

To which the Lord Mayor replied: "I have decided the term of my detention. Whatever your Government may do, I shall be free, alive or dead, within a month."

The charges against the Lord Mayor were based on papers and a diary found by the Royal Irish Constabulary in a raid made on the City Hall at the time he was arrested. The cipher was discovered in a hut behind the City Hall. The key to the cipher was in the Lord Mayor's desk. There were also discovered official forms containing cipher messages to the police which had been sent out on that very day. By means of similar messages policemen had been lured into ambush and murdered. A published program of the Dail Eireann called for the assassination of royal officials.

County Inspector Maunsell testified that the cipher in the documents was that employed only by officers of the R.I.C. and had gone into operation on July 28. He cited instances:

The President: "Is it a complicated cipher?"

The Witness: "I consider it would be impossible to decipher it without a key."

The Lord Mayor: "I have something to say to this, gentlemen. The only thing relevant about a code is this: Any person being in possession of such a code who is not a member of the Irish Republic is evidence of a criminal conspiracy against the Irish Republic. Therefore, in giving that evidence you do not indict me, but yourself."

A Previous Mayor Hanged
Regarding the death of the Lord Mayor of Cork in London, it is worth recalling that the last Mayor of Cork who died in the capital was hanged for taking part in the Perkin Warbeck insurrection.—Lethbridge Herald.

Don't Use Drugs for Constipation

Bathe Internally—the One Natural Way.

Did you ever know of any person who was permanently cured of constipation by taking drugs of any kind? Drugs simply force nature, and larger doses are required from time to time until the trouble becomes chronic.

Internal bathing with the J. B. L. Cascade is the only permanent relief from Constipation. It keeps the Colon, or large lower Intestine, free from all accumulation. Soon the system performs its regular functions, and there is no further trouble.

Mr. F. Babin, Proprietor Alexandra Hotel, Ottawa, writes: "The J. B. L. Cascade has made a new man of me. I would not sell it for all the money in this world if I could not get another. Through my recommendation I know of a number of my friends who have been using it with the same satisfaction. For people troubled with Constipation, I say it is a godsend, and can heartily recommend it."

The J. B. L. Cascade is the only perfect appliance for Internal Bathing ever devised. It is endorsed by over half a million enthusiastic users. Ask to have it explained to you at A. D. Ferguson's, Druggist, Macleod Alta., or write for booklet to Tyrrell's Hygienic Institute, 163 College St., Toronto.

GRAND DETOUR PLOWERS WIN CUP

J. I. Case T. M. Co. Product takes first and second prizes at the Big Rock, Ill., demonstration.

The excellence of the J. I. Case Threshing Machine company gas tractors and Grand Detour plows was shown Saturday afternoon at the great plowing contest held at Big Rock, Ill., 20 miles from Aurora, Ill. The demonstration was attended by no less than 10,000 farmers. The company's plows and tractors carried away the first and second prizes, leading the field of more than 20 different makes of tractors, and making exceptionally high scores. There was brought back to Racine and placed in the offices of the company a beautiful silver trophy, first prize, and the second prize ribbon.

The contest is an annual affair, being held under the auspices of the Big Rock Plowing association. Saturday's contest was the forty-second held by the association and it attracted an unusual number of contestants as well as spectators. The awards were made by a committee composed of five practical farmers, and they gave first and second honors to the Case Threshing Machine company's product. Each of the plowing outfits was assigned a half acre for each bottom, the object of the contest being to ascertain which of the outfits could do the best job of plowing. The soil was clay very hard and dry and in a stubble field, the depth of the plowing being from five to six inches.

The first prize was won by a Grand Detour two-bottom plow, its score being 84, and it was drawn by a Case 10-18 tractor. The Grand Detour

plows are a Case Threshing Machine company product, coming from the Dixon, Ill., factory of that company. The second prize went to the three-bottom outfit of Grand Detour plows which was drawn by a Case 15-27 tractor. The score of the second prize winning outfit was 81 points, the perfect score being 100 points.—Reprinted from Racine Journal-News, Sept. 27, 1920.

C. Jones, traveller for the J. I. Case Machinery Co., was in town on Thursday October 21st, and booked three orders for immediate delivery of 15-27 Case engines and two orders for 28-46 grain separators for customers who had purchased same from Alex. McDonald, local agent.

FARMER SELLS WHEAT \$5 BUS

Jno. F. Anderson, Jr., of Raymond, expects to ship a car load of "Red Bobbs" wheat from which he will get \$5 a bushel from Dominion Seed houses. Mr. Anderson is a graduate of the Guelph A. C. Ont. He is proving his ability as a scientific farmer.

"Eight million women are going to the polls this fall."
"Yep. And I'll bet each one will know just how every other one of the 8 million are dressed."

TAX SALE

SALES OF LANDS in the PROVINCE of ALBERTA for ARREARS OF TAXES

Notice is hereby given that certain lands in Improvement Districts Nos. 71, 100, 101, 130 and 131, in the province of Alberta, will be offered for sale for arrears of taxes and costs on Tuesday, the 9th day of November, 1920, at 10 o'clock in the forenoon, at the Court House, Macleod, unless the arrears of taxes and costs be sooner paid.

A printed list of the said lands may be obtained upon application to the Department of the Municipal Affairs at Edmonton, Alberta, or may be seen in the issue of The Macleod Times and Weekly News dated Sept. 23rd, 1920.

Dated at Edmonton this 23rd day of September, 1920.

J. H. LAMB,
Deputy Minister,
Department of Municipal Affairs
30-61

REACH & CO.

The H. B. Co. have told you all that they are giving up business this year. It is needless to say that we all will miss them. They had it in their power to be very aggressive or tyrannising with their small competitors. But on the other hand they were civil and courteous. This is important to the merchants and yourselves. It is policy to keep the old reliable stores up to date and able to cater to the increased trade. To do this, however, fresh stock will have to be put in. This is where you, the purchasing public, come on the scene. When the company pull out it means other stores coming in—Jew stores or men who have no sympathy with you and who come for the cash—with Eastern ideas of getting it. Now you can still keep the old merchants in business and enable them to get fresh goods and a larger stock by paying up your bills, even if you have to borrow to do so. These men have trusted you, had faith in you and know the peculiar circumstances many of you were placed in. So by paying them what you owe they can at once re-invest the money buying a larger stock. This is a case in which honesty is the best policy, and you can't be honest when you keep or spend the money instead of paying the merchant what you owe.

Rheumatic Pains

Quickly Eased By Penetrating
Hamlin's Wizard Oil

A safe and effective preparation to relieve the pains of Rheumatism, Sciatica, Lamé Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out the soreness, and limbers up the stiff aching joints and muscles.

Wizard Oil is a good dependable preparation to have in the medicine chest for first aid when the doctor may be far away. You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache and croup. Always keep it in the house.

Generous also bottle 25c.
If you are troubled with constipation or sick headache try Hamlin's Wizard Liver Whisk just pleasant little pink pills at drugstore for 25c.

NEW PHOTODRAMA TELLS ORIGIN OF THE HUMAN RACE

The management of the Empress theatre announces that the new Select special attraction, "A Scream in the Night," will be its attraction for Wednesday and Thursday next. This announcement is of more than passing interest in view of the fact that "A Scream in the Night" takes its place among the greatest pictures made since its inception of the art.

The picture achieves its greatness principally by reason of its unique and powerful dramatic story. Written by Chas. A. Logue, the story is based on the Darwinian theory that man is evolved from monkey.

A cold monster of science, professor Silvio aspires to prove Darwin right. In accomplishing this he hopes to achieve immortality, for, with Darwin's theory verified, he declares that Adam and Eve will be branded as

myths, the foundations of religion will be destroyed and God will be taken from humanity. That will be his immortality, he proclaims.

The experiment with which he hopes to prove Darwin's theory is a wild creature whom he brings up in the jungles. The creature, named Darwa, is taken to civilization where society accepts him as a woman. Robert Hunter, a young aristocrat falls in love with her. He is being congratulated by his friends, when Silvio steps in and declares that he is to be congratulated upon the success of his experiment. The creature is not a woman, he explains, but the result of his experiments, therefore, only half human.

Ruth Budd in leading role. Subsequent events seem to bear until the climax is reached when in a most unique and highly dramatic situation Darwa, the wild creature, is pitted against an ape. Gifted with reasoning power, she escapes a fate worse than death by triumphing over the ape, which is shown to have only the power of imagination. It is in this climax that the author refutes Darwin's theory.

Besides its story, "A Scream in the Night" is of special interest by reason of the appearance of Ruth Budd, a new and unique screen personality, who in the role of Darwa is seen flitting about from tree to tree like her companions of the jungle. Ralph Kellard, a favorite of stage and screen, plays Robert Hunter, John Webb Dillion appears as Professor Silvio, while Edna Britton who is rapidly advancing in film ranks, has an important role as a dashing widow of the sportive type.

SOME SALT

The volume of the salt in the ocean according to the United States geological survey, is enough to cover the entire surface of the United States to a depth of eighty-five hundred feet.

TELEGRAPHIC BRIEFS

(By William G. Butler)

LONDON, Oct. 22.—An English king for Ireland, with a separate kingdom within the Empire, appears more possible daily. I am told now that Lloyd George is giving the proposition, careful consideration. The chief objection is that the Catholics of Ireland will not consider a king who is a Protestant, while the English law requires that kings be Protestant; but it is pointed out that there is nothing in the English law to prevent a member of the ruling family to embrace the Catholic faith or become extremely sympathetic to it.

Word here is that Griffiths is favorably considering such a solution to the Irish question. If his mind is working along the same lines as Lloyd George's, there will be a member of the English royal family on the Irish throne before long. It is reported that Griffiths approached the more friendly members of Lloyd George's cabinet to arrange parliamentary action on the subject. So far as direct negotiations are concerned, I am told authoritatively the matter of an Irish kingdom has not been discussed, but the preliminary negotiations deal with Ireland's desire to see the ban to the Irish parliament, "Dail Eireann," lifted, and recognized as the official Irish body.

British war reprisals against Irish republicans is understood to have gone far in bringing them to a willingness to treat with the British authorities. It is said the "Dail" has O.K'd Griffiths' plan for an armistice, but reports through the British secret agents indicate a split in the Sinn Fein ranks between the extremists, who want war to the end, and the conservatives, who are willing to treat with England.—Calgary Herald.

VANCOUVER, Oct. 21.—The province of British Columbia, by a majority estimated at 25,000, expressed itself yesterday as preferring government control and sale of liquor to the prospect of continued prohibition. Although there are many districts yet to be heard from, the vote in the cities and towns is conclusive and decisive so far as the fate of the Prohibition Act is concerned. Pen-ticton and Nelson only among the cities gave meagre majorities for prohibition. All the others went for government control by substantial majorities, in many cases there being two votes to one in favor.

Vancouver Goes Wet

The city of Vancouver, which at the former referendum was strongly in favor of prohibition, gave a majority of 10,000 against the present act.

Both sides at the outset expressed their fullest confidence, the prohibitionists relying very heavily on the votes of the new enfranchised women.

The poll all over the province was a heavy one.

The extent of the victory for government control was a surprise not merely to the prohibitionists, but to many of the moderationists.

On Vancouver Island and throughout the interior, all the way from the Buckley valley south to the boundary line, voters expressed their overwhelming desire for government control.—Calgary Herald.

ATHENS, Oct. 25.—King Alexander of Greece died at 5:25 this afternoon. His death was due to wounds he had received in an attack on him by a pet monkey early in October, the king being badly mutilated. Throughout last night the heart action grew weaker, his general debility became more pronounced and pulmonary troubles were intense. Breathing at times was most difficult and at noon today it was announced that the king's condition was hopeless.

PREMIER TO SPEAK IN LETHBRIDGE ON NOVEMBER 8

CALGARY, Oct. 28.—The prime minister, Hon. Arthur Meighen, and party spent half an hour last evening at the C. P. R. depot, where they were met on arrival by a large deputation of local Conservatives. The train arrived from the east shortly after 9 o'clock. The party included premier and Mrs. Meighen, Hon. J. A. Calder, W. J. Black and others.

It was announced that premier Meighen will speak in Lethbridge on the evening of Monday, November 8, and will arrive in Calgary on the train from the south on Tuesday morning, November 9.

Premier Meighen expressed himself as being well pleased to be in the west again for a short time. Neither the premier nor other members of his party are discussing public questions during the western tour, except at public gatherings.—Lethbridge Herald.

STRIKE FLOW OF OIL EAST OF RED DEER

CALGARY, Oct. 28.—That the Imperial Oil Company has brought in its well at Czar, Alberta, northeast of Calgary and almost due east of Red Deer, near the boundary of the province, is the information received here last evening from fairly reliable sources, says the Albertan this morning.

The flow of oil is said to be fairly large and of a good quality.

The Czar well was one of the first to be started by the Imperial Oil Company.

None of the Imperial Company development officials are in the city at present and the report could not be verified from that source.—Lethbridge Herald.

SPAN OF LIFE FOR ANIMALS

Sparrows have lived to be 40 years old. A horse does not live much more than twenty-seven years. Cats get to be about 13 years old. The tortoise is supposed to live to be between 300 and 400 years old. Some persons say loads can live forever, but, of course, that has not been proved, though certainly they live to be a great age. Both an eagle and crow have been known to live to be 100, but the wren lives only about three years. An elephant's life-time is about 100 years, but he isn't regarded as grown up until he is about 25 years old.—Family Herald.
